C1 Did the council take account of the Regional Development Strategy?

Plan Component

Part 1, Section 6.0 Spatial Growth Strategy

Relevant Policy, Paragraph, Appendix or Proposal Map

Paras: 6.6, 6.15, Page 36 Table 2 and Map on page 37 Settlement Hierarchy

Details

I greatly welcome this opportunity to respond to the consultation regarding the Fermanagh and Omagh Local Development Plan Draft Plan Strategy(DPS) Pub. 26th October 2018. In section, 6.0 SPATIAL GROWTH STRATEGY(in The Draft Plan Strategy) P 31 'which is based on the RDS,' both Omagh and Enniskillen are identified and the Main Local Hubs. Omagh, however includes a large part of Killyclogher village and townland, which has its own unique sense of identity as a sustainable traditional village with which its residents strongly identify. Unfortunately this has not been recognised in this document and could lead to a limitation on the growth of the community and unique sense of identity. The Draft Plan Strategy needs to recognise the semi-rural culture of people in Killyclogher, the very strong allegiance with community groups and sporting teams in the village and the very real sense of place that Killyclogher people feel. This diminution would be contrary to the aspirations of the RDS 2035. (See below) The RDS2035 under RG6: Strengthen community cohesion, 3.11 states, "The right environment can help strengthen community cohesion, foster a stronger community spirit and increase our sense of place. The village concept is important for both rural and suburban areas as it can bring people together and strengthen communities by sharing a sense of place and identity." The concept of Suburban village strongly applies to the community of Killyclogher and it is a significant omission that it is not included in this Draft Plan Strategy. In the REGIONAL DEVELOPEMENT

STRATEGY RDS 2035, the foreward stated that “Sustainable communities are at the heart of what we do. It is important that we maximise the use of existing infrastructure and services and that we create places which are safe and inclusive and offer equality of opportunity.” It also reported at 3.90 [P73] “The fastest rates of growth were seen in villages (+13 per cent) and intermediate settlements (+11 per cent). “ This reflects the experience of Killyclogher where there is a growing community of people from rural areas choosing a “urban village” in which to live. This is creating a growing Sustainable community which maximises the use of existing infrastructure and services and creates a place which is safe and inclusive and offers equality of opportunity. This growth is now limited by the absence of a recognition of its particular needs in this Draft Plan Strategy. In this Draft Plan Strategy paragraph 4.9 states “ Community identity is strong in the Council area, with residents having an affinity with the village/settlement/townland in which they reside”. This Draft Plan Strategy needs to change to recognise and allow Killyclogher to develop and grow its own already strong community identity.

In section, 6.0 SPATIAL GROWTH STRATEGY (in The Draft Plan Strategy) P 31 ‘which is based on the RDS,’ both Omagh and Enniskillen are identified and the Main Local Hubs. Omagh, however includes a large part of Killyclogher village and townland, which has its own unique sense of identity as a sustainable traditional village with which its residents strongly identify.

Unfortunately this has not been recognised in this document and could lead to a limitation on

the growth of the community and unique sense of identity. The Draft Plan Strategy needs to recognise the semi-rural culture of people in Killyclogher, the very strong allegiance with community groups and sporting teams in the village and the very real sense of place that Killyclogher people feel. This diminution would be contrary to the aspirations of the Fermanagh and Omagh 2030 Community Plan. The RDS2035 under RG6: Strengthen community cohesion, 3.11 states, "The right environment can help strengthen community cohesion, foster a stronger community spirit and increase our sense of place. The village concept is important for both rural and suburban areas as it can bring people together and strengthen communities by sharing a sense of place and identity." Furthermore, in order to leverage the Fermanagh and Omagh 2030 Community Plan, it is of critical importance to first, accurately identify the communities within the DBS. The strong sense of community in the Suburban village of Killyclogher needs to be recognised and it is a significant omission from this Draft Plan Strategy. In the REGIONAL DEVELOPEMENT STRATEGY RDS 2035, the foreward stated that "Sustainable communities are at the heart of what we do. It is important that we maximise the use of existing infrastructure and services and that we create places which are safe and inclusive and offer equality of opportunity." It also reported at 3.90 [P73] "The fastest rates of growth were seen in villages (+13 per cent) and intermediate settlements (+11 per cent)." This reflects the experience of Killyclogher where there is a growing community of people from rural areas choosing a "urban village" in which to live. It is highly sustainable due to its close proximity to the urban centre of the Omagh hub and utilises existing infrastructure. Killyclogher is a growing Sustainable community which maximises the use of existing infrastructure and services and creates a place which is safe and inclusive and offers equality of opportunity. Killyclogher is a long established village and community with a school, church, community centre, sports teams, shops and a vets. The population of Killyclogher see themselves as distinct from Omagh. The recognition of this fact and that Killyclogher is a settlement in its own right within the Draft Plan Strategy is important to allow the community to deliver key components of the Fermanagh and Omagh 2030 Community Plan including actions such as :1.1 Increase uptake of physical, social, culture, arts and leisure activity programmes across all age groups and amongst under- represented groups to improve physical, mental and emotional health and wellbeing. 2.1 Establish Fermanagh and Omagh as an age friendly district: This action will work towards the 8 themes in the World Health Organisation Guidelines with specific programmes and initiatives aimed at better adapting structures and services to the needs of the aging population, particularly in respect of: 3.1 Maintain and extend the Neighbourhood Watch Initiative 3.9 Explore further opportunities to strengthen community capacity and resilience across rural and urban areas 3.10 Expand and develop activities for people living with a disability across the district's culture/arts and leisure venues 3.11 Deliver road safety programmes (both safe driving and wider road safety) across a range of age groups 6.3 Improve access to and uptake of sustainable forms of transport (cycling, walking and public transport) 7.6 Promote opportunities for community volunteering and introduce a community awards scheme to recognise positive impact on the environment In this Draft Plan Strategy paragraph 4.9 states " Community identity is strong in the Council area, with residents

having an affinity with the village/settlement/townland in which they reside". This Draft Plan Strategy needs to change to recognise and allow Killyclogher to develop and grow its own already strong community identity. This recognition is essential to deliver the Fermanagh and Omagh 2030 Community Plan. This growth and development of Killyclogher is now limited by the absence of the recognition of its community and particular needs in this Draft Strategic Plan.

Modifications

I suggest the following modifications: 6.6. Enniskillen and Omagh are the principal towns in the Council area, with Omagh being the largest in terms of population and household numbers and includes a large portion of the suburban village of Killyclogher. 6.15. The village concept is important for both rural and suburban areas as it can bring people together and strengthen communities by sharing a sense of place and identity. Villages comprise the third tier of the hierarchy and whilst they vary greatly in size, they will frequently have 'sustainable' services such as a convenience or local shop, a pub, school and church facilities and other services important to serving the needs of the immediate local population. They will also have a readily identifiable 'village core' within which retail services will be found. P36 Table 2 Settlement Hierarchy Classification Under villages, this should also include Killyclogher as a suburban village and part of the Omagh-Killyclogher cluster Map on page 37 Settlement Hierarchy This should include Killyclogher as a suburban village
