Fermanagh Community Transport is delighted to announce that from January to March 2023, we will be in a position to offer FREE MiDAS training, FCT membership and 2 days worth of group transport to community, voluntary, social, sporting, senior

citizens, persons with a disability and church groups etc. This has been made possible through the generous support of Fermanagh and Omagh District Council through its Cost of Living Support Initiative. This initiative is all about giving those within our communities from right across Fermanagh the chance to get out and about, meet with friends, have some fun, enjoy themselves and experience some relief from their everyday pressures.

Never has it been more important to reach out to those who are most vulnerable within our communities and offer them something to look forward to, something which will bring them together with their wider community, reduce feelings of isolation and loneliness and promote positive physical and emotional wellbeing.
