Dos and Don'ts

Good and Bad Shopfront design

- respect the character of the existing building and its neighbours
- use special features, finishes and details to draw people's attention
- have a clear identity not a mixture of styles
- follow the proportions of the rest of the building and provide a visual support for upper floors
- keep designs simple, even if elements within the shopfronts are elaborate
- integrate signs, lighting and security measures within the design of the shopfront
- If in doubt – ring/write/call in - asap
