# Commitments

April 2026

## **1. Background and Context**

- 1.1. Paragraph 6.24 (page 40) of the Plan Strategy advises that “the majority of new strategic growth in the settlements will be delivered through existing housing sites under construction or with current planning permission (i.e. commitments)”.
- 1.2. Paragraph 3.8 (page 63) further advises that, for the purposes of policy HOU01 ‘existing commitments’ means the total of any extant planning permissions or sites which are currently under development as recorded in the most recent Annual Monitoring Report.
- 1.3. Commitments will be constantly fluctuating, as new permissions are granted, and extant permission expire. There may also be extant permissions that may not be able to be built out i.e., legal or land ownership issues.

## **2. Approach to Commitment**

- 2.1. Officers have identified the current level of commitments, including associated site details within each settlement (Table 1). This will assist agents when preparing supporting statements for applications for housing developments on greenfield sites (as per policy HOU01). This is only an indicative figure, and applicants and agents may well have more in-depth knowledge of sites and potential constraints or barriers to development. Any feedback will be reviewed and incorporated in the report going forward, and the report will be updated on an ongoing basis.
- 2.2. The Housing Monitor (HM) report and commitments exercise included Officers reviewing sites with extant planning approvals and approvals where the time limit had expired. Officers carried out a desktop review, including review of aerials and also liaised with Building Control to check if the site had commenced. Sites were only classed as lapsed within the context of available information.
- 2.3. This is a judgement by Officers for the purposes of this exercise and is not a definitive legal position on whether a site has legally commenced or lapsed. The proper legal process for a definitive decision on this is through a Certificate of Lawful Development under Sections 169 and 170 of the Planning Act (Northern Ireland) 2011.
- 2.4. Nothing in this report should be read as generating an expectation as to how the Council will determine any individual application for planning permission, enforcement case or certificate for lawful development in the future.

**Table 1 – Commitments across all settlements: continued overleaf**
