# Background

The model Complaints Handling Procedure for Local Authorities in Northern Ireland requires regular reports to be produced for the Fermanagh and Omagh District Council (the Council) Corporate Leadership Team, Elected Members, the Northern Ireland Public Services Ombudsman (NIPSO), and the wider public.

The Council complaints handling procedure, modelled on the NIPSO procedure, ensures that the Council:

- Complies with the statutory requirements established by the Public Services Ombudsman Act (NI) 2016;
- Follows a standard approach to managing complaints across the public sector
- Makes it easier for members of the public to complain;
- Gives staff and customers confidence in complaints handling;
- Promotes a culture of learning from complaints; and
- Encourages staff to make the best use of lessons learned from complaints.

## Complaints Handling Procedure

The Council's definition of a complaint is '**An expression of dissatisfaction by one or more members of the public about Fermanagh and Omagh District Council's action or lack of action, or about the standard of a service provided by or on behalf of Fermanagh and Omagh District Council** '.

All complaints received are managed under a 2 stage complaints procedure:

Stage 1: **Frontline stage** provides an opportunity to resolve or respond to complaints quickly and effectively and to consider immediate actions to resolve the complaint. A response should be issued within 5 working days.

Stage 2: **Investigation stage** requires a full and detailed investigation for usually more complex or serious issues. A response should be issued within 20 working days.

A person can make a complaint verbally, including face-to-face and by telephone, and in writing (letter or email) or via the [online form](#).

## Actions taken/to be taken and Lessons learned

An individual complained that:	We listened, we acted:
Their bin was lost in a refuse lorry during collection.	Bin was replaced by the Council.
Their blue bin had not been emptied.	The bin was not collected as it has been contaminated with incorrect waste. The individual was advised on the types of waste that should be placed in the blue bin and that the bin would be lifted once the contaminated material was removed.
During a planning application process, they did not receive a letter of notification.	Planning Officers advised to check that notification letters for all properties have been served correctly during the process of any application.
Youths were being very disruptive in the swimming pool and staff did not intervene.	This incident was used as part of staff training exercises and guidance was provided to staff on how to manage this situation.
Anglers parking on grass verges leaving them very muddy.	Measures were put in place to alleviate the problem.

Heads of Service and Managers review complaints that are upheld or partially upheld to consider if a change is required to prevent the issue occurring again.

All service areas are committed to continuous improvement in service delivery and excellent customer service which includes the following:-

- Training and supporting staff where Council policy or procedures have not been followed;
- Putting things right where they have gone wrong, admitting where a mistake has been made; and
- Reviewing current policy or procedures to amend and improve Council services.

### **Complaints considered by NIPSO**

Once a complaint has been dealt with at Stage 2 by the Council, if the complainant remains dissatisfied, they can contact the Northern Ireland Public Services Ombudsman to investigate their complaint.

NIPSO can investigate complaints about public service providers in Northern Ireland. NIPSO publishes its findings on its website at <https://www.nipso.org.uk/investigations>

NIPSO received 3 complaints about the Council during 2024/2025. The complaints received were regarding the Planning Service and NIPSO did not uphold any of the complaints and no further action was required to by the Council.
