Enniskillen District Electoral Area (DEA)

Children and Young People (CYP) Health Profile

Overview

This profile provides a snapshot of data in relation to the Children and Young People in the Enniskillen District Electoral Area. It contains a compendium of high-level statistics from various publicly available sources. It complements the existing DEA Health Profile for Enniskillen, available here.

The statistics suggest that on average, 22% of people in Fermanagh and Omagh live in relative poverty. However, this masks a wide variation in poverty levels, deprivation, health and wellbeing across the Fermanagh and Omagh District. This profile seeks to inform the debate, by providing a high-level snapshot of relevant statistics for Children and Young People within a DEA, covering general demographics, health, and education.

The Children and Young People's Strategic Partnership (CYPSP) work collaboratively to improve the lives of children and young people, with a range of supporting information available on their website. For more information:

General

- **Introduction:** The Enniskillen DEA is a primarily urban area, comprising Enniskillen town and the surrounding areas including Lisbellaw, Trory and Killadeas. It is home to 18,446 people.
- **Number of Children:** Based on Census 2021 data, there were 3,911 residents *aged under 18* in Enniskillen DEA (21.2% of the population), below the District rate of 23.8%. The age profile is shown below:

Age Group	#	%
0-4 years	989	5.4%
5-9 years	1,115	6.0%
10-14 years	1,389	7.5%
15-17 years	418	2.3%

- **Country of Birth:** In Enniskillen DEA, 15.6% of children and young people *aged under 18* were born outside the UK and Ireland, compared with 16.3% across Fermanagh and Omagh District. (Census 2021)
- **Language:** In Enniskillen DEA, 4.3% of children and young people *aged between 3 and 18 years* reported a first language other than English, above the District rate (3.4%). (Census 2021)
- **Relative Poverty:** In Enniskillen DEA, an estimated 20.3% of children *aged 15 and under* live in households with incomes below 60% of the Northern Ireland median, indicating that around one in five children may be living in relative income poverty (NIMDM2017).
- **Crime and Safety:** In Enniskillen DEA overall, rates of violence, robbery and public order offences (26.6 per 1,000 population) and anti-social behaviour incidents (49.3 per 1,000 population) are substantially higher than the District average (13.1 and 21.3 per 1,000 population, respectively). For both indicators, Enniskillen DEA ranks among the 20% most deprived DEAs in Northern Ireland (NIMDM2017).

Omagh District Electoral Area (DEA)

Children and Young People (CYP) Health Profile

Overview

This profile provides a snapshot of data in relation to the Children and Young People in the Omagh District Electoral Area. It contains a compendium of high-level statistics from various publicly available sources. It complements the existing DEA Health Profile for Omagh, available here.

The statistics suggest that on average, 22% of people in Fermanagh and Omagh live in relative poverty. However, this masks a wide variation in poverty levels, deprivation, health and wellbeing across the Fermanagh and Omagh District. This profile seeks to inform the debate, by providing a high-level snapshot of relevant statistics for Children and Young People within a DEA, covering general demographics, health, and education.

The Children and Young People's Strategic Partnership (CYPSP) work collaboratively to improve the lives of children and young people, with a range of supporting information available on their website. For more information:
