

## Sustainable Development: Reuse Scheme

Fermanagh and Omagh District Council provides a reuse scheme for items that are suitable for reusing or restoring, allowing residents to give items they no longer want a new home.

Members of the public wishing to pass on to registered charities, can place any unwanted items in the reuse containers located at the following Council facilities:

- Gortrush Civic Amenity Site, Omagh
- Drummee Civic Amenity Site, Enniskillen
- Carrickmore Recycling Centre
- Fintona Recycling Centre
- Kesh Recycling Centre
- Irvinestown Recycling Centre
- Lisnaskea Recycling Centre

Fermanagh and Omagh District Council's Re-use Scheme aims to provide residents in the district with a more efficient waste service provision that provides economic, social and environmental benefits to your community.

In addition, residents can also leave in any unwanted tins of paint (either full or partially used) which are then made available for the public to call in and take as required.

Further information on the scheme can be obtained by downloading an information leaflet from the downloads panel on the Council's Sustainable Development web page.
