| BACKGROUND | | | | | | | | |
| <u>Introduction</u> | | | | | | | | |
| The CIPFA Prudential Code for Capital Finance in Local Authorities (The Prudential Code) was introduced following the Local Government Finance Act (Northern Ireland) 2011. It details a number of measures/limits/parameters (Prudential Indicators) that are required to be set each financial year. The approval of these Prudential Indicators will ensure that the Council complies with the relevant legislation and is acting prudently and that its capital expenditure proposals are affordable. This report presents for approval the Prudential Indicators required to be set by the Council to comply with the code. | | | | | | | | |
| 1. EXTERNAL DEBT INDICATORS | | | | | | | | |
| The Council will set for the forthcoming financial year and the following two financial years an operational boundary for its total external debt, excluding investments and separately identifying borrowing from other long-term liabilities. | | | | | | | | |
| The operational boundary will provide in year monitoring and is set lower than the authorised limit (affordable borrowing limit) as it is based on an estimate of the most likely level of external borrowing at any point during each year. | | | | | | | | |
| a) Operational Boundary | | | | | | | | |
| The Operational Boundary is the maximum level of external debt projected based on the most likely prudent view. | | | | | | | | |
| | | | 15-16 | 16-17 | 17-18 | 18-19 | 19-20 | |

| The Council will set for the forthcoming financial year and the following two financial years an authorised limit for its total external debt, excluding investments and separately identifying borrowing from other long-term liabilities. The authorised limit will contain sufficient headroom to provide for any unanticipated payments as well as being based on the authorities capital investment plans. | | | | | | | | |
| b) Authorised Limit | | | | | | | | |
| The Authorised Limit (Affordable Borrowing Limit) is the Operational Boundary plus headroom for unusual cash movements of £1m | | | | | | | | |

| c) Actual External Debt | | | | | | | | |
| The prudential indicator for Actual External Debt is considered at a single point in time and hence is only directly comparable to the authorised limit and operational boundary at that point in time (01 April 2017). | | | | | | | | |

| 2. | CAPITAL EXPENDITURE INDICATORS | | | | | | | | |
| The Council has made reasonable estimates of the total Capital Financing Requirement (CFR) at the end of the forthcoming financial year and the following two years. The CFR reflects the Councils underlying need to borrow. | | | | | | | | | |
| a) | Capital Financing Requirement | | | | | | | | |
| | | | 15-16 | 16-17 | 17-18 | 18-19 | 19-20 | | |
| | | | Prior | Current | | | | | |
| | | | Year | Year | Year +1 | Year +2 | Year +3 | | |
| | Rounded to (£) | | 13,300,000 | 13,700,000 | 15,400,000 | 22,100,000 | 28,300,000 | | |
| The Council has made reasonable estimates of the total capital expenditure that it plans to incur during the forthcoming financial year and the following two years. The estimates of capital spend includes any estimated spend (dependant on option appraisals) or spend dealt with as other long-term liabilities. | | | | | | | | | |
| 3. | AFFORDABILITY INDICATORS | | | | | | | | |
| This indicator provides a measure of the proportion of the net revenue budget that is being allocated to the financing of capital expenditure. This indicator is a measure for the forthcoming financial year and following two years. | | | | | | | | | |
| a) | Ratio of Financing Costs to Net Revenue Stream | | | | | | | | |
| | | | 15-16 | 16-17 | 17-18 | 18-19 | 19-20 | | |
| | | | Prior | Current | | | | | |
| | | | Year | Year | Year +1 | Year +2 | Year +3 | | |
| | % | | 5.6% | 5.8% | 5.9% | 6.8% | 7.6% | | |
| This indicator demonstrates the incremental impact of planned capital spend and associated borrowing on the level of rates. | | | | | | | | | |
| It is the Council's loan and lease interest payments and MRP charge in any one year as a percentage of the combined total of general grant, district rates and capital grants and contributions. | | | | | | | | | |
| b) | Estimate of the revenue impact of Capital Investment decisions on the District Council Rates | | | | | | | | |
| This indicator measures the revenue impact of capital investment decisions. The revenue impact is a combination of relevant financing and direct revenue costs as a result of operating the new capital projects e.g. electricity, light & heat, staff costs. particularly with the introduction of Economic Appraisals. | | | | | | | | | |
| | | | 15-16 | 16-17 | 17-18 | 18-19 | 19-20 | | |
| | | | Prior | Current | | | | | |
| | | | Year | Year | Year +1 | Year +2 | Year +3 | | |
| | £ / % | | 0% | 0% | 0% | 0% | 0% | | |
| It is envisaged from review of the Council's capital programme that the revenue impact of our capital investment decisions will be negligible, calculated at an increase of less than 1% for future years to 2019/20, with a number of projects aimed at improving the current revenue impact, therefore reducing the additional revenue finance costs associated with funding the programmes. | | | | | | | | | |

| | £ | Prior Year | Current Year | Year +1 | Year +2 | Year +3 |

| b) | The Council must ensure that debt does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus estimates of any additional capital financing requirement for the current and next two financial years. | | | | | |
| 5. | TREASURY AND EXTERNAL DEBT INDICATORS | | | | | |
| | There are four treasury prudential indicators, the purpose of which is to contain the activity of the treasury function within certain limits, thereby managing risk and reducing the impact of an adverse movement in interest rates. However, if these are set to be too restrictive they will impair the opportunities to reduce financing costs. The indicators are: | | | | | |
| a) | Compliance with CIPFA Code of Practice for Treasury Management in the Public Services | | | | | |
| | The Council has adopted the CIPFA Code of Practice for Treasury management in the Public sector and all Treasury Management activities are carried out in accordance with the Code. Details of compliance are included within the Treasury Management Policy (incorporating Treasury Management Practices). | | | | | |
| b) | Interest Rate Exposures | | | | | |
| | Upper limits on fixed interest rate exposure – This indicator identifies a maximum limit for variable interest rates for the debt position net of investments. | | | | | |
| | Upper limits on variable interest rate exposure – Similar to the previous indicator this covers a maximum limit on fixed interest rates. | | | | | |
| | 100% of the Council's borrowing is on fixed interest rates and 100% of the Council's investments are deemed to be on variable interest rates as their maturity periods are all of periods of less than one year. | | | | | |
| | | 14-15 | 15-16 | 16-17 | 17-18 | 18-19 |
| | Gross Debt | Prior Year | Current Year | Year +1 | Year +2 | Year +3 |

| c) | Maturity Structure of Borrowing | | | | | | |
| Maturity structures of borrowing – These gross limits are set to reduce the Council's exposure to large fixed rate sums falling due to refinancing within the same financial year, and are required for upper and lower limits. | | | | | | | |
| The percentage for the Lower Limit is the percentage of the Council's total debt that will mature in the periods defined. | | | | | | | |
| The percentage for the Upper Limit is the percentage of the Council's total debt that will mature in the periods defined and allowance of a maximum of 10% of additional borrowing repaid in that period. | | | | | | | |
| | | | Current Year | | Year +1 | | |
| | | | Upper | Lower | Upper | Lower | |
